REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Jalloul et al discloses a QAM system which modulates the QAM constellation according to the values of the pilot and traffic channel gains that are being sent to a mobile wireless device on a control channel, resulting in improved receiver performance. Black et al discloses a technique for channel gain computations. Tong et al discloses a technique for determining transmit signal powers of channels in a CDMA system.

Prior art of record, taken individually or collectively fails to disclose a method or an apparatus "for determining a pilot-to-data power ratio which receives a data symbol having a data amplitude, receives a pilot signal having a pilot amplitude, reverses training an automatic gain based on the data amplitude and the pilot amplitude, and determines a pilot-to-data power ratio according to the reverse training of the automatic gain" as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
